

# Quick Preview for Learning Object Storage

IBM Systems Storage

The first quarter of 2020

## Document Description

This document is from [The Path to IBM Object Storage Experts](#), a roadmap of [IBM Online Lab](#).

Welcome to IBM Online Lab for free systematic learning. In addition to all contents in this document, you may also view other contents in the online learning courses, including hands-on demos and quizzes. After answering all questions correctly and completing all experiments, you will obtain a certificate issued by IBM.

Here are the entrance to the roadmap and a sample certificate

- [Portal to](#) The Path to IBM Object Storage Experts
- Sample Certificate for The Path to IBM Object Storage Experts

Instructions for Learning Object Storage.....	1
Document description .....	2
1. Get to Know Object Storage .....	4
1.1 Why do You Need Object Storage .....	4
1.2 Concepts You Must Know about Object Storage.....	5
1.3 How to Access Object Storage .....	7
1.4 Comparison of Block/File/Object Storage Types.....	9
2. Application Scenarios of Object Storage.....	11
2.1 Application Scenarios of Object Storage .....	11
2.1.1 Scenario One: Content Management Platform.....	12
2.1.2 Scenario Two: Enterprise File Service.....	14
2.1.3 Scenario Three: Backup .....	17
2.1.4 Scenario Four: Real-time Archiving .....	20
2.1.5 Scenario: Cloud Storage Platform .....	24
2.2 Key factors in selecting object storage .....	25
2.3 Object Storage Model Selection .....	27
3. Detailed Explanation on IBM Object Storage .....	30
3.1 IBM Object Storage System Architecture .....	30
3.2 Key Techniques of the IBM Object Storage System.....	36
3.3 Deployment Options of IBM Object Storage .....	42
3.4 IBM Object Storage All-in-one Machine .....	44
3.5 Examples of Cross-industry Application .....	46
3.5.1 Example One: Financial Industry Oracle Backup .....	46
3.5.2 Example Two: Entertainment and Media.....	49
3.5.3 Example Three: Education and Scientific Research.....	52
3.5.4 Example Four: Healthcare and Medical Imaging.....	55
3.5.5 Example Five: Logistics and Traffic Management .....	58
3.5.6 Example Six: Telecom Industry and Content Service Providers .....	61
3.6 IBM Object Storage Integration Solution.....	63
3.6.1 Scheme One: IBM Spectrum Protect.....	63
3.6.2 Scheme Two: IBM Spectrum Protect Plus .....	66
3.6.3 Scheme Three: IBM Spectrum Scale.....	68
3.6.4 Scheme Four: IBM Spectrum Discover .....	71
4. IBM Object Storage Case Sharing .....	73
